

## ATHANA Stand-Alone CD Duplicators

### Professional 3, 5, 8 Drive CD Duplication System

- High-speed 16x CD recorder
- Duplicate up to 96 full-length CDs per hour
- Record virtually any data, audio, hybrid or multimedia CD format
- Complete stand-alone systems
- Easy operation allows complete duplication with the press of one button
- Burn CDs from the internal hard drive or from source CDs
- Slave configuration allows for additional duplicators
- Advanced CD recording software for a full range of duplication options
- 1 Year system warranty

### Complete Stand-Alone Systems!

Athana's 8, 5, 3-Bay Professional Stand-Alone CD/DVD Duplicators are complete and incredibly easy-to-use duplication systems. Complete in one durable, upgradable and (for the 3 and 5-bay systems) easily expandable and attractive unit - every-thing you need to put high performance duplication at your fingertips. Easy and powerful firmware allows complete control of the duplication process from CD to CD-R or HD to CD-R. No other duplication systems can match Athana's price, performance and reliability. Check out all the features and performance specifications (see other side)!

## Athana Professional Duplicator Features

- LCD front panel and easy to use push button controls
- CD audio capture and playback
- 3 and 5-bay are expandable to 8-bay system
- Extensive reporting for ease of troubleshooting
- Duplicates most major CD formats: CD-ROM, ISO 9660, Mixed Mode, Mac, CD-XA, CD-DA, Photo CDs, Audio CDs, CD+G, Video CDs and even mixed Multi Session CDs.
- Automatically decodes format type and configures the CDR or CDR/W for the proper format
- Duplicates CDRs without the use of a computer system, no software required
- Completely configured and ready for use - no software to load, no drives to install. Just start duplicating!
- Thoroughly tested in the field under the most stringent requirements for performance, compliance to recording standards.
- No maintenance required, easy to use, easy to update recorder firmware and simple to replace drives
- Excellent manufacturer warranty and technical support
- Convenient and intuitive user interface for simple setup and operation
- Burn CDs from the internal hard drive or from a source CD
- Supports Disk at Once, Track at Once, plus support for most popular formats
- Tray loading, attended system
- Elegant and contemporary design for quick access to all internal systems
- Test Run before writing: Save media by verifying that the write will be successful.
- Extracts Audio tracks independently to hard drive for different CDs by using the Audio Extraction feature.
- Copy Job: Copy directly from the hard drive or the CD-ROM
- ISO Job: Creates ISO formatted images at an unparalleled formatting speed in either ISO 9660 level 1 or Joliet formats for universal compatibility.
- Image File Job: Creates a CD from an imported image file created in another application and imported into the CD Duplicator for recording and replication.

## Unit Specs

Power Supply(s): Power Consumption: 300W  
Power Source: 115V/230V switchable 50-60Hz  
Data Capacity: 650MB (74min disc), 550MB (63min disc)  
Dimensions: 24" H x 7.5" W x 22.5" L  
Case Material: Solid steel, fully welded  
Weight: Up to 60 lbs. - slave units up to 55 lbs.  
Warranty: 5 Year  
Temperature: 40°F-95°F (5°C-35°C)

## Drive Specs

Mechanism: High-Quality 16X write/20x read CD Recorders  
Interface: Fast SCSI 2  
Data Buffer Size: 2MB  
Disc Type: 8cm/12cm; audio CD; CD-ROM Mode 1; Mode 2 (Form 1, Form 2); XA Ready; Video CD; CDI; Multi Session Photo CD
